EXTENSION OF THE REFINED JENSEN'S OPERATOR INEQUALITY WITH CONDITION ON SPECTRA

JADRANKA MIČIĆ^{1*}, JOSIP PEČARIĆ² AND JURICA PERIĆ³

Communicated by M. S. Moslehian

ABSTRACT. We give an extension of the refined Jensen's operator inequality for n -tuples of self-adjoint operators, unital n -tuples of positive linear mappings and real valued continuous convex functions with conditions on the spectra of the operators. We also study the order among quasi-arithmetic means under similar conditions.
