

SUMMARY

I. Bala Mishra, S. Porwal – <i>On a new subclass of harmonic univalent functions with missing coefficients</i>	1
K S Venkatesha, S K Narasimhamurthy – <i>Projectively related purely Hermitian complex Finsler metrics</i>	15
A.A. Yusuf – <i>On Subclass of Bazilevic Functions associated with certain Caratheodory-Type function S normalized by other than Unity</i>	33
O. Mert and Y. Polatoğlu – <i>A Certain Subclass of Log-Harmonic Mappings</i>	43
S. Uygun – <i>Bi-Periodic Jacobsthal Lucas Matrix Sequence</i>	53
S. Hussain, Z.-G. Wang, S. Ghoo Ali Shah, Z. Shareef, A. Tasleem, M. Darus – <i>On meromorphic multivalent functions associated with linear operator</i>	71
A.O. Mostafa, Z.M. Saleh – <i>Properties for Subclasses of Starlike Function Associated with q-Analogue Operator and Complex Order</i>	89
K. Vijaya, G. Murugusundaramoorthy and S. Yalçın – <i>Subclasses of Spiral-like functions associated with Pascal distribution series</i>	103
İhsan Çelikkaya – <i>Application of Operator Splitting by Quartic B-spline Collocation for Burgers' Equation</i>	115
E. Yaşar, S. Çakmak, S. Yalçın and Ş. Altinkaya – <i>Some connections between various subclasses of Harmonic univalent functions involving Pascal distribution series</i>	133
