

SUMMARY

H. Irmak – <i>A note on some analytic and geometric properties of certain multivalent functions</i>	1
B.A. Frasin, T. Al-Hawary, F. Yousef – <i>On the univalence of general integral operator</i>	9
A.R.S. Juma, R.A. Hameed, M.I. Hameed – <i>Some Results of Second Order Differential Subordination Involving Generalized Linear Operator</i>	19
A. A. Wani, V. H. Badshah, S. Halici, P. Catarino – <i>On A Fibonacci-Like Sequence Associated with k-Lucas Sequence</i>	41
A. Çetinkaya, Y. Kahramaner, Y. Polatoğlu – <i>Fekete-Szegö inequalities for q-starlike and q-convex functions</i>	55
A.A. Hamoud, K.P. Ghadle – <i>A study of some reliable methods for solving fuzzy Volterra-Fredholm integral equations</i>	65
G. Szabó, L. Kovács – <i>Lattice Based Morphological Rule Induction</i>	93
M. Tahir, B. Khan, A. Khan – <i>Fekete-Szegö problem for some subclasses of analytic functions</i>	111
S. Owa, H. Saitoh, J. Sokół, M. Nunokawa I – <i>Univalency of some operators for analytic functions</i>	121
R. M. El-Ashwah, W. Y. Kota – <i>Errata: Some Condition on A Poisson Distribution Series to be in Subclasses of Univalent Functions</i>	135
