

Expression of probes

uc002vf.1 (FN1) length=8647

Each dot represents the median of probes at the given location

The data is taken from the data set: ProbeLevelSet

Expression of probes

uc002vfd.1 (FN1) length=8647
Each dot represents a sample at the given location
The data is taken from the data set: ProbeLevelSet

Expression of probes

uc002vfd.1 (FN1) length=8647

Each dot represents the median of probes from the following variables: Female, Male in gender

88 Female samples are blue – 83 Male samples are red

The data is taken from the data set: ProbeLevelSet

Probes that contain significant correlations to variable according to a wilcoxon test are circled

Expression of probes

uc002vfd.1 (FN1) length=8647

Each dot represents the median of probes from the following variables: CC, CT, TT in genotype1
50 CC samples are blue – 86 CT samples are purple – 35 TT samples are red

The data is taken from the data set: ProbeLevelSet

Probes that contain significant correlations to variable according to a linear model test are circled
