

Papers and posters listed by first author

These pages show the presentations sorted alphabetically by their first authors. Click on the authors to open the paper. If you don't know the first author you can use Acrobat's find function to find another author. You can also access the papers via the program, where the [papers are sorted by sections](#).

Some of the authors only gave presentations and did not provide a paper or poster for inclusion on the CD-ROM. In these cases the link will bring up the authors contact address.

[Abdullah, Luki; Ronald F. Kühne and Paul L.G. Vlek](#)

Effect of plant residue quality of secondary forest vegetation on phosphate mineralization and immobilization in soil
