

SUMMARY

A.S. Shinde, R.N. Ingle, P.T Reddy – <i>Certain Subclass Of Meromorphic Functions Involving Bessel Operator</i>	1
S. Kant and P.P. Vyas – <i>q-Starlike functions of order α and type β</i>	13
M. Çakmak – <i>The differentiable h-convex functions involving the Bullen Inequality</i>	29
D.A. Romano– <i>The First Isomorphism Theorem of Implicative Semigroup with Apartness</i>	37
M. Ray Bakshi, Ashoke Das, K.K. Baishya – <i>Existence of hyper generalized weakly symmetric Lorentzian Para-Sasakian manifold</i>	51
Vernold Vivin J, Sivakami R, Kaliraj K – <i>On Star Coloring of Modular Product of Certain Graphs</i>	67
Manoj Ray Bakshi, Ashoke Das, Kanak Kanti Baishya – <i>Riemann solitons on generalized D-conformally deformed Kenmotsu manifold with a hyper generalized pseudo symmetric structure</i>	77
A. Anat Jaslin Jini and S. Monikandan – <i>Reconstruction Number of Topological Spaces with Unique Isolated Point</i>	89
M. Budden and J. Clifton – <i>A Weakened Version of Strict Schur Numbers</i>	111
Dariusz Latifi– <i>Bi-invariant (α, β)-metrics on Lie groups</i>	121
